

ANDROID MEETS LED BULBS IN SMART HOME AUTOMATION

INTRODUCTION

Android is a free, open source mobile platform. It is a Linux-based, multiprocess, multithreaded Operating System.

Android is a software stack for mobile devices that includes an operating system, middleware and key applications. By providing an open development platform, Android offers developers the ability to build extremely rich and innovative applications.

The Android SDK provides the tools and APIs necessary to begin developing applications on the Android platform using the Java programming language.
