

## ABSTRACT

### FABRICATION OF 3 AXIS PNEUMATIC TRAILER

This project work titled –Three axis pneumatic modern trailer|| has been conceived having studied the difficulty in unloading the materials. Our survey in the regard in several automobile garages, revealed the facts that mostly some difficult methods were adopted in unloading the materials from the trailer. The trailer will unload the material in only one single direction. It is difficult to unload the materials in small compact streets and small roads. In our project these are rectified to unload the trailer in all three sides very easily.
